### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Laura Shires on August 28, 2006.

The application has been amended as follows:

Cancel Claims 108-127.

2. The following is an examiner's statement of reasons for allowance: After reviewing the amendment filed on December 27, 2005, the claims were found to be allowable since no prior art could be found teaching or suggesting a swallowable capsule comprising: a reference generator arranged to generate a time reference from which the time of the acoustic signal generation is determined, as claimed in Claims 50 and 95; the local determining means comprises a time differential means for determining the transmission time of the acoustic signal means between the external means and the capsule means, as claimed in Claim 140; and a reference means for determining the time lag between emitting the detectable acoustic signal and receiving the acoustic signal at the at least one acoustic sensor, as claimed in Claim 145.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
